

Business Hazardous Waste Management Program (VSQG) Verification Form

Company Name: _____

Address: _____

Address: _____

City: _____ State: _____ Zip: _____

Contact Name: _____ Contact Email: _____

Contact Phone: _____ Contact Fax: _____

Purpose:

The City of Sioux Falls Office of Public Works is offering this service to businesses as part of its Business Hazardous Waste Management Program. Businesses that are classified as a Very Small Quantity Generator (VSQG) under the state's hazardous waste regulations, which adopt by reference the federal hazardous regulations under RCRA Subtitle C, are eligible. The goal of the program is to assist small businesses by providing an environmentally friendly way to manage their hazardous wastes while reducing or eliminating the disposal of these hazardous wastes to the City's sanitary sewer system, City's regional sanitary landfill, or the environment.

Businesses who generate more than 1 kg (2.2 lbs) of acutely hazardous waste and/or more than 100 kg (220 lbs) of toxic hazardous waste in a calendar month are **not** eligible for this program as they are **not** regulated as VSQGs.

By signing this document, the generator verifies that they meet VSQG requirements and are eligible to participate in this City-funded program.

Company Authorized Representative:

Printed Name: _____

Signature: _____ Date: _____

For more information about generator requirements or generator status, please contact the South Dakota Department of Agriculture and Natural Resources Waste Management Program/Hazardous Waste at 605-773-3153.
