**Reason for Hydrant Use:** \_\_\_\_\_

	Size	Deposit	U.S. Gallons per Minute	Meter Charge
<input type="checkbox"/>	5/8"	\$1,500	20	\$0.45/day
<input type="checkbox"/>	3"	\$1,500	225	\$1.93/day

- Hydrant meter set/and removal is \$35 each, during the hours of 8 a.m. to 4 p.m. If hydrant meter needs to be set or removed after-hours, there will be an overtime charge based on current overtime rates.
- Consumption charges are based on current commercial rate structure in City ordinance 51.048.
- Government and municipal entities are exempt from deposits.

<i>Applicant initial here.</i>	<p><b>§ 50.013 UNAUTHORIZED ACCESS, BYPASS, OR TAMPERING.</b></p> <p>(a) It shall be unlawful for any person to:</p> <ol style="list-style-type: none"> <li>(1) Connect to, turn on, turn off, or disconnect any utility service offered by the city;</li> <li>(2) Remove, replace, or repair any utility equipment belonging to the city connected to any utility service offered by the city;</li> <li>(3) Access, open, or tamper with any meter, water hydrant, backflow preventer, or other utility equipment belonging to the city connected to any utility service offered by the city;</li> <li>(4) Bypass or otherwise engage in unauthorized metering; or</li> <li>(5) Tamper with any utility service furnished by the city to consumers.</li> </ol>
--------------------------------	---

<i>Applicant initial here.</i>	<p><b>Contractor will NOT operate hydrant or move any part of the hydrant meter.</b></p> <p>The hydrant meter discharge hose will not run across any public roadways due to potential water hammer damage with mains or services in the area.</p> <p>Contractor is responsible for protecting the hydrant meter and assembly from freezing. Any damage to the hydrant meter and/or the assembly or any related damage as the result of freezing is the responsibility of the contractor.</p>
--------------------------------	--

<i>Applicant initial here.</i>	<p><b>Hydrant meters, backflow preventers, and meter fittings shall not be altered without consent of Public Works Meter Shop.</b></p>
--------------------------------	--

I, the undersigned, will assume the responsibility for damage and/or loss to the hydrant, hydrant valve, backflow preventer, fittings, and meter. In the event of damage and/or loss to the above materials, the undersigned shall be charged for the repair/replacement of equipment.
